

LED Retrofit Kit

High Brightness LED replacement for Outdoor Light Fixtures

Kit Includes:

1	Keilton Photo Switch
1	Hatch 12V Power Source
1	Draco LEDdynamics Board
2	Pieces of thermal tape

Description

LED fixture gone bad? We have a great replacement solution for many outdoor lantern fixtures. These fixtures are built with cheaply made components so we made an all-in-one kit to keep your light up and running for good! Super Bright at 1050 Lumens and a soft, warm 3000K output.

Retrofit Solution for Altair:

Altair Outdoor Wall Lanterns have common issues that cause them to fail in a short amount of time based on your environment. This retrofit kit works great for, but is not limited to the below models:

- AL-2149 • AL-2163
- AL-2167 • AL-2169
