

Channels 1-5  
Outputs to LEDs

12V to Fan

Power In

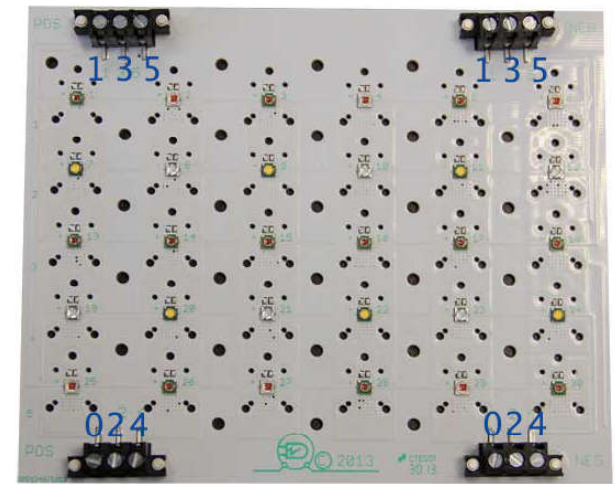

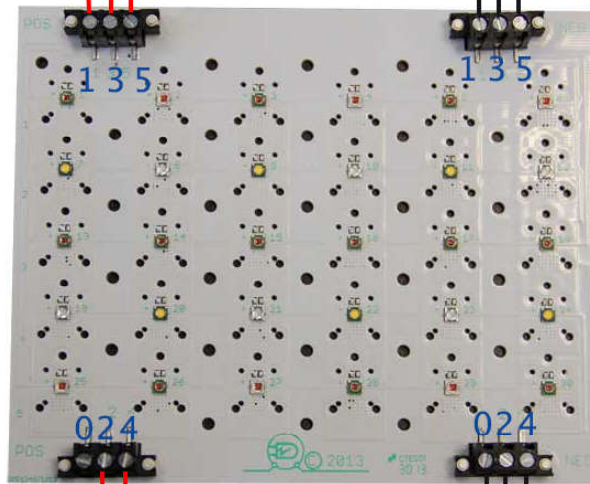

When wiring a single board, NEG channels 1,2,3,4,5 go back to corresponding NEG channel on driver. If wiring two boards, NEG channels 1,2,3,4,5 go to corresponding POS channels on next board and circuit is completed by returning NEG channels on board 2 back to driver.

DC LED Drivers for  
Channels 1-5

- CH1: 700mA
- CH2: 1000mA
- CH3: 1000mA
- CH4: 1000mA
- CH5: 700mA
